Text Follow-up Template

V1.0 · DAY 7 OF THE FOLLOW-UP RHYTHM

Pre-flight check: only text business numbers that have been published publicly (Google Business Profile, the business's own website, etc.). If the only number you have was scraped from a residential context, do not text it — call instead.

Texts to use

All under 320 characters (one SMS segment). Identify yourself in the first six words. Sign off with "—Name, NEPA-PRO" so they know it's not a stranger.

Variant A — first text after no response

SMS

Hey [Name] — [Your name] from NEPA-PRO. Left you a voicemail and email last week about building a website + app for [Business name]. No pressure, just figured I'd try once more in case those got buried. Want me to send a 2-minute walkthrough? — [Your name]

Variant B — they engaged but went quiet

SMS

[Name] — [Your name] @ NEPA-PRO again. We talked briefly about a new site for [Business name]. Still want me to put together a quick mockup, or is timing not right this quarter? Either answer is fine, just don't want to bug you. — [Your name]

Variant C — final touch before marking Lost

SMS

Last note from NEPA-PRO — closing the loop on [Business name]. If now's not the right time, no problem; I'll stop reaching out. If anything changes down the road: (570) 677-7971. Wishing you a great rest of the year. — [Your name]

Compliance

- ☐ If they reply **STOP**, **UNSUBSCRIBE**, **QUIT**, **END**, or **CANCEL** (case-insensitive) — mark DNC immediately, do not text again, do not call again.
- ☐ Replies to a sales text are not consent for ongoing texting. One reply, one response, then back to the calendar.
- ☐ Do not use shortened links from public URL shorteners — carriers filter them. Use the full app.nepa-pro.com URL.
