Sales Script — Hair Salons

V1.0 · FOR PA-REGION HAIR SALONS

Why this market

Hair salons share the same booking and reminder mechanics as nail salons, but the brand and portfolio piece carries even more weight — clients shop on visuals first, location second, price third. The pitch leans heavier on photo portfolio and stylist-level branding.

2–3×

higher new-client conversion when stylists have individual portfolio pages

~\$80

average ticket — every recovered no-show is real money

1. Pre-call research

- ☐ Their Instagram — does each stylist have their own work shown, or is it all one feed?
- ☐ Google Business Profile — photos current? Booking link?
- ☐ Look for stylist-personal-brand signals: are any of them building independent followings?

2. Opening

Required identification (TCPA): the first thing out of your mouth on every call must be your name, that you are calling from NEPA-PRO LLC, and the purpose of the call. Failure to identify violates federal law.

YOU

"Hi, this is **[your first name]** from **NEPA-PRO** — we're a veteran-owned shop in Clarks Summit. I'm reaching out because we built a booking and portfolio platform for hair salons across PA, and I noticed [salon name] could use one consolidated place where customers see your stylists' work and book them. Got a minute for me to explain?"

3. Discovery

1. "How do new clients usually find you — Instagram, Google, walk-in, referral?"
2. "Do your stylists each have their own following, or is the salon brand the main draw?"
3. "When you raise prices on a service, how do customers find out — walking in, or do they get a heads-up first?"

4. Value pitch — hair-specific

1. **Per-stylist booking pages** — each stylist gets their own portfolio, calendar, and direct-link card. Stylists love this; salon owners benefit from the unified backend.
2. **Photo-first homepage** — color, cuts, transformations. Visual first, copy second.
3. **24/7 booking + reminders** — same no-show reduction story as nails.
4. **Service menu with pricing** — clear, current, never out of date in your window display.
5. **Loyalty + referral credit** — friend referrals are how salons grow; reward them automatically.

5. Pricing & CTA

YOU "Best thing is for me to share my screen for 10 minutes — I'll have mockups ready for [salon name] specifically. Wednesday or Friday this week, mornings or afternoons?"

6. Hair-specific objections

THEY SAY	YOU SAY
"My stylists are independent — they each do their own thing."	"That's actually our sweet spot. We give each one their own page and calendar but bring it all under your salon brand. They get tools they wouldn't pay for individually, you get visibility."
"I don't trust online booking — I want to talk to clients first."	"Totally fair. We can flag any first-time booking to require your approval before it's confirmed — same effect as a phone call, fewer interruptions."
"My Instagram is enough."	"Instagram drives discovery, but it's a rented platform. They change the algorithm and your reach gets cut overnight. Your own site is the asset you actually own — Instagram drives traffic <i>to</i> it."

7. After the call

- ☐ If booked → calendar invite within 5 minutes, mark **Qualified**
- ☐ If LVM → use the Voicemail Script doc, mark **LVM**, send Email Follow-up
- ☐ If "not interested" → polite exit, mark **Lost**
- ☐ If "remove me" → mark **Do Not Call** immediately, no follow-up

For pricing, "send me an email," and other generic pushback, see the **Objection Handling Library**.
